

Journal of Groundwater Science and Engineering

Vol.12 No.1 Mar.2024

Contents

- 1 **Accelerating collaborative innovation in hydrological, engineering, and environmental fields**
Min Wang
- 4 **Characterization of rock thermophysical properties and factors affecting thermal conductivity—A case study of Datong Basin, China**
Meng-lei Ji, Shuai-chao Wei, Wei Zhang, Feng Liu, Yu-zhong Liao, Ruo-xi Yuan, Xiao-xue Yan, Long Li
- 16 **Groundwater vulnerability assessment using a GIS-based DRASTIC method in the Erbil Dumpsite area (Kani Qirzhala), Central Erbil Basin, North Iraq**
Masoud H Hamed, Rebwar N Dara, Marios C Kirlas
- 34 **Assessment of groundwater suitability for different activities in Toshka district, south Egypt**
Marwa M Aly, Shymaa AK. Fayad, Ahmed MI Abd Elhamid
- 49 **Health risk assessment of heavy metal pollution in groundwater of a karst basin, SW China**
Funing Lan, Yi Zhao, Jun Li, Xiuqun Zhu
- 62 **Identified the hydrochemical and the sulfur cycle process in subsidence area of Pingyu mining area using multi-isotopes combined with hydrochemistry methods**
Hui-Meng Su, Fa-Wang Zhang, Jing-Yu Hu, Jin-Feng Lei, Wei Zuo, Bo Yang, Yu-Hua Liu
- 78 **Formation mechanism of hydrochemical and quality evaluation of shallow groundwater in the Upper Kebir sub-basin, Northeast Algeria**
Allia Zineb, Lalaoui Meriem
- 92 **Development status and prospect of underground thermal energy storage technology**
Ying-nan Zhang, Yan-guang Liu, Kai Bian, Guo-qiang Zhou, Xin Wang, Mei-hua Wei
- 109 **Groundwater recharge via precipitation in the Badain Jaran Desert, China**
Zhe Wang, Li-juan Wang, Jian-mei Shen, Zhen-long Nie, Le Cao, Ling-qun Meng
