Multipurpose Utilization of Mineral Resources (Bimonthly 2022 No.4 Sum236)

CONTENTS

COTTENTS
Comprehensive Utilization of Metal Mineral Resources Experimental Study on Extraction of Aluminum and Iron from Bayer Red Mud by Deep Reduction Sintering
Dynamic Study on the Release and Migration of Heavy Metals during the Oxidation of Lead-Zinc Tailings
Li Xiaoyan et al.(6)
Study on Comprehensive Recovery of Gold, Silver and Copper Associated with Iron Ore in Qinghai · · · · Chen Yong(12)
Experimental Research on Nelson Gravity Separation from a Gold Mine Flotation Tailings in Subei
Liu Kun et al (17)
Research Progress on Recovery of Scandium from Vanadium Titano- Magnetite in Panzhihua
Wang Lufeng et al.(21)
Research on Process Mineralogy of a High-iron Manganese Ore in Zambia Liu Pengfei et al.(27) Removal of Pb, Zn, Cu, Cr and Ni in Iron Tailings by Leaching Liu Yuxin et al.(33)
Experimental Study on Beneficiation of Coarse Concentrate from Shizhuyuan Magnetite Mine · · · · Long Bing et al.(41)
Optimization of Microwave Drying of Iron Precipitate Slag with Response Surface Methodology
ivia Aiyuali Ct al.(40)
Separation of Iron(II) and Vanadium(IV). Chromium(III) from Low Valence Vanadium Solution and Preparation of Mohr's Salt
Experimental Study on the Removal of Fe ²⁺ and Mn ²⁺ from Zinc Sulfate Water by Micro-nano Ozonation
Different Treatments of Zinc Oxide Ore in Caustic Leaching Process
Research on Boiling Roasting Behavior of Complex Zinc Concentrate
Effect of Suspension Magnetization Roasting Temperature on the Properties of Roasted Products of Chongqing Jielong Iron Mine
Xu Chao et al. (82)
Relation between Structural Deformation and Mineralization in Lala Copper Deposit, Sichuan · · · · · Tang Hui et al.(87)
Process Mineralogy and Beneficiation-Metallurgy Test of Geertuo Gold Deposit, West Qinling · · · · Wang Tao et al.(94)
Research Status of Granulation Technology Process of Fine-Grade Rich Titanium Material · · · · · Hou Xiaolei et al.(100)
New Technology for Efficient Resource Utilization of Red Mud from Bayer Process · · · · · · He Yao(106)
*Reviews
Research on Basic Performance and Aging Durability of Iron Tailings Asphalt Mixture Zhao Lianping et al.(111)
Research Progress of Recovery Process of Valuable Metals in Cathode Materials of Waste Lithium Batteries
Research Progress on Fly Ash Based Geopolymer
Research Progress on Preparation of Geopolymer Grouting Material from Coal Gangue · · · · · · Zhu Longtao et al.(129) Supply Security and Technological Innovation of Global Cobalt Minerals · · · · · · ZHANG Hui et al.(134)
Mineral Engineering Research on Mechanical and High Temperature Resistance Properties of Recycled Aggregate Concrete Containing Mineral Admirtures Vin Vincipan (143)
Soil Environmental Quality Assessment around the Undeveloped Ion Adsorption Type Rare Earth Ore in Southern
Ijangyi
Research on Optimization Experiment of Preparing 13X Molecular Sieve · · · · Si Yucheng(157)
Extraction of Amorphous Silicon from Fly Ash and High Value Utilization of Silicon Products
Extraction of Amorphous Silicon from Fly Ash and High Value Utilization of Silicon Products
Study on Comprehensive Utilization of Phosphorus Slag Modified Asphalt Mixture Wang Dongdong et al. (169)
Study on the Factors Influencing on Potassium Feldspar - Phosphogypsum - Activated Carbon Potassium Extraction
Process · · · · Tang Hai et al.(175)
Experimental Study on Iron Removal and Whitening of a Kaolin in South China Guo Chunlei et al.(183)
Study on Improvement of Phosphorus Release Characteristics of a Phosphate Rock Powder by Wet Grinding Li Yingying et al.(188)
Analysis &Identification
** Analysis & Identification ** Research on Process Mineralogy of Anqian Magnetite Ore ** Wang Changyan et al.(193)
Study on Process Mineralogy of an Iron Ore in Inner Mongolia · · · · · Cai Mingming et al.(200)
Study on Hyperspectral Analysis of Iron Ore Powder and Quantitative Inversion of Iron Grade
